JJ International Instruments

Designers & Manufacturers of Surgical Instruments

US FDA, CE & ISO REGD.

ABOUT US

JJ International Instruments - A leader in designing and manufacturing of high quality stainless steel surgical instruments in India. With a vast experience of 46 years in the industry, JJ provides unmatched service and unbeaten quality to the worldwide market. Corporate office and manufacturing unit with state of art facilities is located in south Indian state, Kerala - The renowned 'God's Own Country'.

CONTINUES SUCCESS...

JJ became world wide since exhibited in AAOS 2013 with tremendous response from both domestic and international surgeons. JJ now participates many tradeshow in USA and more than 30 tradeshow all over India yearly. JJ is the only one company now in India who has approved by US FDA.

JJ design & manufacture complete Surgical Instruments for - General Orthopaedic, Spine, Hand & Micro Surgery, Gynec & Obstetrics, Uro, E.N.T, Neuro, Thoracic & Cardiovascular, Plastic, General surgery.

Features and Benefits

- Genuine 'JJ' Brand
- Custom made Instruments
- Made out of German Stainless Steel- SS410& SS 420
- Follows International Passivation standard - ASTM 967
- International hardness of product - 45 HRC & 50 HRC
- Universal Specifications & Quality
- 5 years replacement warranty against manufacturing defect
- Absolute Competitive price
- JJ welcomes innovative ideas and designs
- Gift packs on attractive terms

JJ's repairing & refurbishing program:

- Repairing & refurbishing of surgical instruments of any brand
- Reduce purchase budget drastically
- Annual Maintenance Contract (AMC)
- Round the clock service center
- Replace damaged instrument with new until rectification

JJ's Mobile Trade Expo

- Introducing mobile sales and service all over India
- Specially designed instruments on display
- Easy to select, exchange and experience
- Get technical advice from the experts
- Contact us for mobile trade expo schedules

SKIN GRAFT KNIVES

Watson Skin Graft Knife

- 30.5cm/12" length

Right handed
SL3100-30

Left handed
SL3101-30

The roller bar is smooth and does not oscillate or rotate in use. The graft thickness is controlled by slackening the locking nut and rotating the adjuster nut until the required thickness and then set by tightening the locking nut. The graft thickness is consistent as the roller bar can only be adjusted in parallel.

Braithwaite Skin Graft Knife

- 30.5cm/12" length

Right handed
SL3120-30

Left handed
SL3121-30

The grooved roller bar oscillates from side to side as well as rotating. The graft thickness is controlled by rotating the adjuster nuts at the end of knife, this will move the roller bar up or down.

Cobbett Skin Graft Knife

- 30.5cm/12" length

Right handed
SL3130-30

Left handed
SL3131-30

The grooved roller bar only oscillates from side to side. The adjustment for the thickness of the graft is the same as the Braithwaite knife.

Humby Skin Graft Knife

- 36.5cm/14 1/4" length

Right handed
SL3110-36

Left handed
SL3111-36

The grooved roller bar rotates and oscillates from side to side. The graft thickness is controlled by adjusting the thumb screws on top of the support pillars.

Silver Skin Graft Knife

Oral blade

Nasal blade

These instruments are used for maxillary advancement in Le Fort I, II, or III procedures. A large curvature of the blade prevents damage of the teeth. The oral blades are asymmetrical to adapt to the curvature of the palate which is often high and concave.

Tessier-Rowe Right Side

Smith Ramus Separator

23cm/9" length
12mm width

SL6005-23

The superior ramus separator in conjunction with the sagittal split separator allows controlled separation of the superior ramus osteotomy cut. It's unique blade action exerts force over a broad surface area for maximum control. This instrument is also useful in "down facturing" the maxilla by placement at the zygomatic buttress osteotomy cut.

ACLAND MICRO VESSEL CLAMPS

"A" or "V" Pattern?

Throughout the series, the "V" pattern is the all-purpose clamp, commonly used on all veins, and almost all arteries. The "A" pattern, available in all sizes, is designed for exceptionally thick-walled vessels and slippery arteries. The slight incurve of the tips of the "A" pattern jaw provides extra security against slippage.

- Light and compact design
- Extremely durable
- A unique gripping surface
- Smooth sliding bar action on all approximator clamps
- Clamp profile with parallel sided jaws
- Matt or black finish

The following Ultra-Fine Micro Instruments have been manufactured at the extremes of Instrument makers capabilities with extremely precisely manufactured tips facilitating supermicrosurgical techniques. This allows anastomosis of extremely small vessels ranging in diameter from 0.3 to 0.8mm using 11-0 or 12-0 sutures.

The advancement in new supermicrosurgical reconstructive techniques has resulted in new applications of this technique such as crushed fingertip replantations with venule grafts, toe tip transfers for fingertip loss, and lymphaticovenular anastomoses of vessels (LVA) for lymphedema.

Ultra-Fine Micro Instruments are ideally suited for free flaps and free perforator-to-perforator flaps.

HAND RETRACTOR

Tuppers Hand Retractor Set Complete Set with container

SL-100/110

Tuppers Universal Hand Holder and Retractor Set enables the surgeon to fixate the hand in any position needed. The patient's hand is held absolutely firm and allows unhindered work under the microscope. Ball chains of varying length with skin or tendon hooks fixate the hand and lower arm on the Hand Holder. Due to the slots around the Hand Holder, retraction in every direction is possible. Upward retraction is easily achieved with the elevated chain holders. The special container is designed for easy handling and safe storage.

Set consisting of the following instruments:

Qty	Order Code	Description
1	SL-101	Hand Table
2	SL-102	Elevated chain holders
2	SL-103	Chain holder hooks
2	SL-104	Ball chains 32cm, with skin-hooks
